

**Dr. Joachim Beck-Mußotter**

Following his degree at Heidelberg University, Dr. Joachim Beck-Mußotter was a research associate from 2003 to 2010 at Heidelberg University's Oral, Dental and Maxillofacial Clinic, polyclinic for dental prosthetics. From 2008, he had the position of senior consultant, and from 2005 to 2010 he was also the head of the HeiCuDent Referats für Studium und Lehre at the same place. Furthermore, he was the head of the ambulant clinic and of the headquarters of the polyclinic for dental prosthetics at the university's Oral, Dental and Maxillofacial clinic. After brief employment at Dr. Graf's dental practice in Weinheim, he established himself there in 2011 and founded the Joint Practice for Dentistry: Das Zahnkonzept in Weinheim. Since 2011, he has had a university teaching position at Heidelberg University's Clinic for Guided Surgery and is an expert in the areas of conservative and prosthetic dentistry, as well as implantology and 3D processes. Furthermore, his reputation is backed up by countless prizes and qualifications, including the title of Specialist for Prosthetics (DGPro), certified implantologist (DGI) and Master of Science in dental prosthetics and oral implantology.

Universal bonding solution  
with G-CEM LinkForce:

# Strong adhesion

for a diversity of materials  
and indications

By **Dr. Joachim Beck-Mußotter**

Modern cements need to meet high demands due to the diversity of indications and materials available today, for example with respect to long-term adhesion and convincing aesthetics. That's why, several months ago, Dr. Joachim Beck-Mußotter chose to use the universal adhesive composite cement G-CEM LinkForce™ from GC, among other products. What convinced him about the material was its high adhesive strength both in self-cure and light cure mode, as well as the availability of different shades and try-in pastes.
